Summary

Full-stack developer with end-to-end experience delivering web applications from requirements analysis through production: React.js and Next.js interfaces, TypeScript, Node.js APIs, and PostgreSQL/MongoDB data modelling. Delivered 4 freelance client applications with secure authentication, Stripe payments and Twilio OTP, plus an Agile team platform. Experienced with GitHub Actions CI/CD, automated testing, Docker, Linux VPS and Nginx deployment. Bachelor in Information Systems with Highest Honors; professional English and French, methodical and comfortable collaborating remotely.

Experience

Full-Stack Software Engineer *Nov 2025 – Present*

Freelance *Remote*

Designed and shipped 4 production client web applications end-to-end (React.js, Next.js, Node.js, Express.js, PostgreSQL) from specification to live release.

Deployed and maintained server infrastructure on Linux (Docker, Nginx, VPS), providing active system monitoring and production troubleshooting.

Engineered resilient REST APIs integrating critical third-party services: secure Stripe payment checkouts and Twilio SMS OTP verification.

Configured automated GitHub Actions CI/CD pipelines running linting and automated unit testing prior to every release.

Full-Stack Developer — Final Year Project (PFE) *Feb 2025 – Jun 2025*

Laghazala du Désert *Gabes, Tunisia*

Developed full-stack tourism web platform (React.js, Node.js, Express.js, MongoDB) consuming third-party APIs, JWT authentication, and SSL encryption, delivered via Agile sprints.

Web Developer — Intern *Jul 2024 – Aug 2024*

Groupe Chimique Tunisien (GCT) *Gabes, Tunisia*

Engineered internal data automation tool (PHP, SQL), slashing manual data entry turnaround time by **70%** for an operational team of 5 staff.

Gathered business specifications and authored comprehensive technical documentation and user guides for operational teams.

Technical Skills

Languages: JavaScript, TypeScript, Python, PHP, HTML5, CSS3.
Front-End: React.js, Next.js, Tailwind CSS.
Back-End: Node.js, Express.js, NestJS, RESTful APIs; Laravel/PHP (academic training).
APIs & Integrations: REST API design & consumption, third-party payments (Stripe), SMS OTP (Twilio), JWT, SSL.
Databases: PostgreSQL, MongoDB, SQL.
Testing & Quality: Automated CI/CD testing, debugging, comprehensive technical documentation.
DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Docker, Linux VPS, Postman; AWS (basic knowledge).

Projects

ApplyFlow — Job Application Assistant & Autofill Extension — *Next.js · NestJS · TypeScript · MongoDB · Stripe*

Kanban job application tracker with multi-resume management and a Manifest V3 Chrome Extension that autofills application forms from saved profile data.

Eventify — Event Ticketing & Booking Platform — *Node.js · PostgreSQL · React.js · Flutter · Stripe*

Full-stack web & mobile booking platform with secure Stripe payment flow, Twilio SMS OTP verification, and JWT role-based authentication.

Education

Bachelor in Information Systems — Highest Honors (Mention Très Bien) *2022 – 2025*

ESSAT Gabès *Gabes, Tunisia*
