Summary

Full-stack engineer proficient in React.js/Next.js, Node.js/Express.js, and PHP, with proven experience designing and integrating end-to-end RESTful APIs across PostgreSQL and MongoDB databases. Strong DevOps acumen: deploying and hardening Linux infrastructure (Docker, Nginx, VPS), automating CI/CD pipelines (GitHub Actions), and version control. Delivered 4 commercial client web apps end-to-end from requirements gathering to live production release, alongside an Agile full-stack team platform. Bachelor in Information Systems (Highest Honors), self-driven, analytical, and bilingual in French and English.

Experience

Full-Stack Software Engineer — Freelance (Remote) *Nov 2025 – Present*

- Designed and shipped 4 production client web applications end-to-end (React.js, Next.js, Node.js, Express.js, PostgreSQL) from specification to live release.
- Deployed and maintained server infrastructure on Linux (Docker, Nginx, VPS), providing active system monitoring and production troubleshooting.
- Engineered resilient REST APIs integrating critical third-party services: secure Stripe payment checkouts and Twilio SMS OTP verification.
- Configured automated GitHub Actions CI/CD pipelines running linting and automated unit testing prior to every release.

Full-Stack Developer — Final Year Project (PFE) *Feb 2025 – Jun 2025*

Laghazala du Désert *Gabes, Tunisia*

- Developed full-stack tourism web platform (React.js, Node.js, Express.js, MongoDB) consuming third-party APIs, JWT authentication, and SSL encryption, delivered via Agile sprints.

Web Developer — Intern *Jul 2024 – Aug 2024*

Groupe Chimique Tunisien (GCT) *Gabes, Tunisia*

- Engineered internal data automation tool (PHP, SQL), slashing manual data entry turnaround time by **70%** for an operational team of 5 staff.
- Gathered business specifications and authored comprehensive technical documentation and user guides for operational teams.

Technical Skills

Languages: JavaScript, TypeScript, Python, PHP, HTML5, CSS3.
Front-End: React.js, Next.js, Tailwind CSS.
Back-End: Node.js, Express.js, NestJS, RESTful APIs.
APIs & Integrations: REST API design & consumption, third-party payments (Stripe), SMS OTP (Twilio), JWT, SSL.
Databases: PostgreSQL, MongoDB, SQL.
Testing & Quality: Automated CI/CD testing, debugging, comprehensive technical documentation.
DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Docker, Linux VPS, Postman.

Projects

Eventify — Event Ticketing & Booking Platform — *Node.js · PostgreSQL · React.js · Flutter · Stripe*
Full-stack web & mobile booking platform with secure Stripe payment flow, Twilio SMS OTP verification, and JWT role-based authentication.

ApplyFlow — Job Application Assistant & Autofill Extension — *Next.js · NestJS · TypeScript · MongoDB · Stripe*
Kanban job application tracker with multi-resume management and a Manifest V3 Chrome Extension that autofills application forms from saved profile data.

Universal Web Scraper — Automated Data Harvester — *Python · BeautifulSoup · Scrapy · Selenium · Pandas*
Python data harvesting engine automatically handling static and dynamic DOM rendering, extracting and cleaning structured datasets into JSON/CSV.

Education

Bachelor in Information Systems — Highest Honors (Mention Très Bien) *2022 – 2025*

ESSAT Gabès *Gabes, Tunisia*
